

FireCrawl API

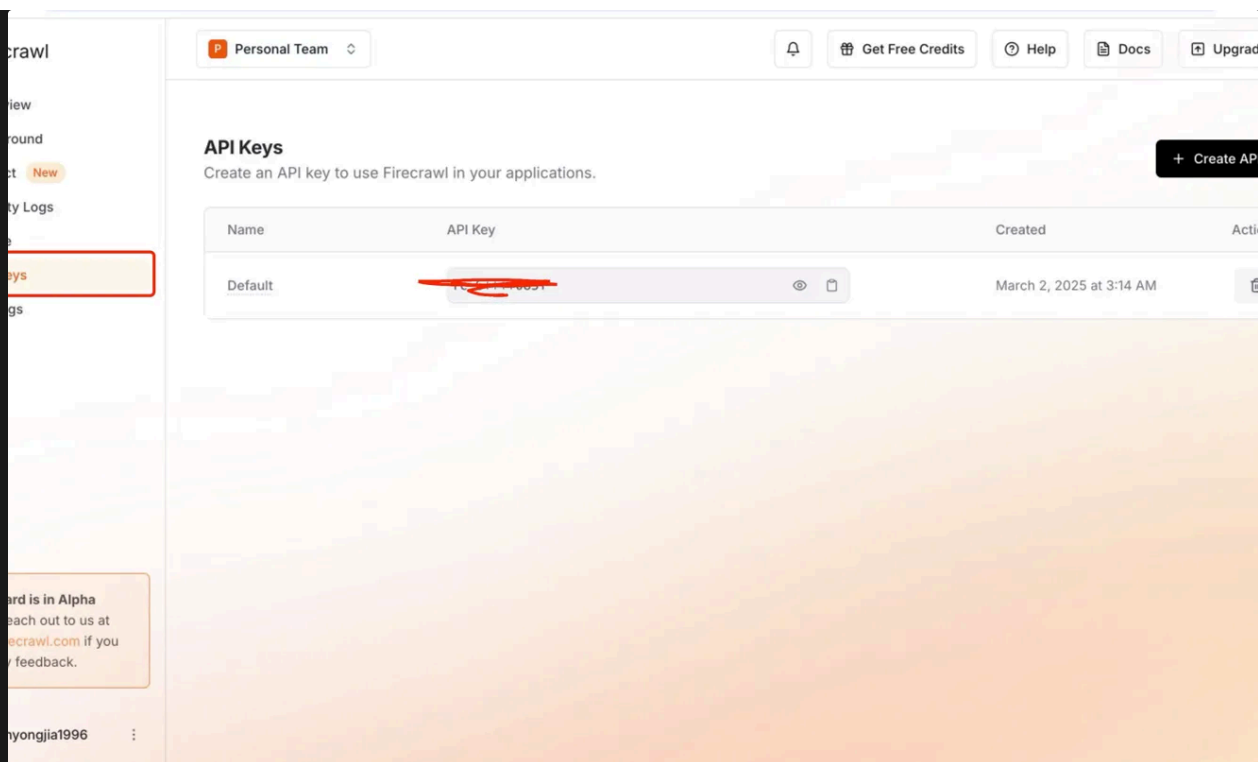

FireCrawl is a powerful tool for extracting structured content from websites.

Step 1: Sign Up for FireCrawl API Access

1. Go to the **FireCrawl website**: <https://www.firecrawl.dev>
2. Click "**Sign Up**" at the top right.
3. Sign up using **your email** or a **Google/GitHub account**.
4. Verify your email if needed.

Step 2: Get Your FireCrawl API Key

1. Once logged in, navigate to **your dashboard**.
2. Click on "**API Keys**".
3. A default API key should be available (see screenshot below); simply **copy it**.

Note: The free credits are enough to get started, so you don't need to purchase additional credits.

Step 3: Add your Key in your `.env` File

```
FIRECRAWL_API_KEY="Replace to your API KEY")
```

By following this guide, you have successfully:

- ✓ Registered a FireCrawl Account
- ✓ Obtained the FireCrawl API Key
